

BA960 HI SCRIM BANNER 250

DESCRIPTION

Made from polyester film embedded between two scrim vinly layers, this media offers high tensile strength as well as a thickness that prevents prevents light from shining through. By using digital technology, it is engineered to increase the value of banner. With matte surface multi layer structure, it has a water resistant coating and a good white surface. Both side laminating with PVC & PET provides curl balance and proper stiffness It is also both sides printable by UV & Latex enabling to save the final cost.

SPECIFICATIONS

Length (m)	30	Width (inch)	36" 50" 60"
Weight (g/m ²)	350	Coating	Resin
Caliper (um)	250	Base Material	PVC + PET
Inner Core (inch)	3	Printer	
Surface	Matte		

KEY FEATURES

- Excellent curl balance & Block out
- Reducing light or reflecitons on the printed surface
- Outstanding color expression
- Both sides printable by UV & Latex

APPLICATION

- Rollup Stands, Trade Show Panels, Indoor/Outdoor POS, Retail Aisle Banners
